FROM THE PRISONERS OF WAR IN THE ROCKLAND COUNTY JAIL

We salute the courageous attacks by the FALN against the u.s. federal state and its repressive agencies. We welcome the armed actions, earlier this month, by the United Freedom Front against Apartheid and its u.s. sponsors. We are overjoyed to see such blows struck against u.s.-led imperialism. We call on all revolutionary conscious people to fully support the armed clandestine movements and all Freedom Fighters in the field.

New Years Eve the establishment news media had the gall to wonder aloud if the rebellion in Overtown, Florida -- the reaction to a killer cop's shooting a young black man in the head -- would tarnish the orange bowl parade. This terrorist pig murderer has a long history of violence in the black colony, to which he was transferred after proving his racism and anti-social bearing in the Cuban community. This is terrorism -- indiscriminantly killing civilians for the purpose of terrorizing and pacifying Third World people.

This shows all the more the necessity for revolutionary armed clandestine forces which can give leadership to peoples struggles to overthrow the imperialist system, and to win liberation.
