- 2.) EASTERN REGION: ATTICA STATE PRISONS
ALL EASTERN UNDERGROUND SAFE HOUSES

An open letter to the people and all combat units of the "New World Liberation Front. (NWLF)

We, The BLA Combat Unit Four, speak to the combat units of the SLA, BGF, the Weatherunderground and other revolutionary groups who have chosen the means of arms as social protest and agent for change.

After studying all the repressive conditions that face the oppressed people of this country and with the yoyness and the knowledge as combat unit four of the BLA we would like to take this opportunity to share our ideas with other combat units of the New World Liberation Front.

We would like to just "put it on the table". It is not right, that if the soldiers of the united states government, and other police pigs who try to stop or somehow try to "slow down" the peoples struggle for Freedom, that where they use all of their "manpower" in one area, that we as soldiers of the people, must commit other revolutionary actions in other parts of the "state". For our vantage point the most advanced forms of struggle are our clandestine BLA assault ~~squads~~ squads, the Weatherunderground, and the SLA combat units. All are working from the premise laid down by our fallen comrade, George Jackson and the example that our fallen Jonathan Jackson. They recognized that a focal motor or armed combatants are the vanguard of urban guerrilla warfare.

We see the need for all combat units of the peoples army, and the General Staff of those groups to spread their soliders in other parts of this country, in order to where the enemy to the ground, to ride his ass unitt he is dead, and no longer oppresses the poor people of the world.

The peoples soldiers understand the meaning of the enemy brings his hand up to destroy units of the peoples force in one part of the country, we know that he's done nothing, because the moment he sleeps, another "cell seed has grown to its utmost and riding the fascist pig to hell.

Each and every major mass movement of popular interest brought forth in this country has met violent governmental opposition. And each of these movements out of respect and love for human life would not consider or endorse all aggressive peoples armed force.

The people have seen and still are seeing how the pigs really works:

In S.F. the agents of the government are stopping black people everywhere, justice to them, the racist pigs say they are "looking for a killer.": They use it only to openly show to the oppressed community that they (pigs) have put black people and other poor oppressed people of the world in a "polic State", they forget that we are not the jews, we refuse to be murdered in the streets, and locked-up in our homes and POW camps.

In S.F. just last week, in the POW camp of city prisons, an openly attempt upon ~~the~~ the poor and oppressed prisoners' life was made by the mayor on all other police officials, they tried to poison the prisoners and get them out of the way in order to insure themselves that they will win the fight.

In New York, a combat unit of the BLA was put into operation to free Prisoners of War. Tat when the combat unit stated that they "will be back" they will return.

As stated before we call for all combat units of the peoples revolutionary forces to "spread" and GET DOWN.
