

# HAD ENOUGH WHITEY?

On Saturday, August 23rd, around 1:00, the hordes of non-whites and race traitors are marching once again into Marquette Park at 67th and Sacramento for a "peace and unity rally". This mob is sponsored by the Martin Luther King Jr. Movement, which in the past two decades has sponsored other marches promoting integration into our neighborhood.

We all know of Martin Luther King's record of being a communist agitator during the 1960's. He was a member of 62 communist front organizations, as well as a graduate of the Highlander Folk School, a known communist training school. These are facts which were documented during investigations by the FBI and the House of Un-American Activities Committee. Isn't it strange that on June 28th of this year, the commies and the Martin Luther King Jr. Movement marched almost simultaneously to disrupt the peaceful, patriotic White Unity Rally in Marquette Park? It was only at the presence of these two groups when violence erupted.

This same group continues to further the ideals of King by espousing integration and communism. While King's outward philosophy was for peaceful rallies, his real purpose was to create violence; Cicero, Marquette Park, and Selma, Alabama were all scenes where King incited riots and violence. And wherever King's people go today, crime rates skyrocket, neighborhoods deteriorate, and property values plummet. Is this what we want to happen to our neighborhood?!

## The Choice Is Yours

We must take a stand to preserve our neighborhood and way of life or LOSE IT FOREVER! We have stopped the non-white hordes in the past, and we must never relent in our principles so that our future generations will continue to live here and be proud of their heritage and community background. NO MORE WHITE FLIGHT! OPPOSE INTEGRATION!

Wave your Confederate and American flags high, and voice your disapproval on August 23rd, at 1:00, 67th and Sacramento, Marquette Park. Stand tall Southwest Side, and be proud!
