***A few of the perpetrators  
of violence against women  
in downtown San Francisco:***

**CITY HALL**

Offices of those who would uphold the status quo and electoral power, who defend racist, sexist anti-gay cops and create policy that falls far short of addressing the concrete needs of women and all people in this city.

**SAN FRANCISCO STREETS**

Daily rape, battery, harassment and murder of women. Recently, eight streetwalkers were killed in Oakland before the cops did anything and two prostitutes were murdered in San Francisco weeks before the SFPD would admit that anyone was killed.

**FEDERAL GOVERNMENT**

Denies us our right to decide when if, where, how and with whom to have children by denying us access to good child care, affordable health care, safe birth control, free abortion and jobs that don't hurt our bodies or the environment. Provides \$500 million a year to the gov't of El Salvador in "aid" to capture, rape, torture and murder Salvadorean women of all ages.

**CONSTRUCTION SITE**

We want to be able to go anywhere without harassment; to be seen as more than a "body". No one has the "perfect" body type (thin, white, young) and having men whistle/pinch/rape us isn't a measure of how attractive we are.

**RATHSKELLER BAR**

Site of police academy celebration where an academy graduate was blindfolded, handcuffed and serviced by a stripper hired by his cheering fellow cops. Incidents like this are part of a "boys will be boys" attitude which encourages unhampered exploitation of women.

**DOMINO'S PIZZA**

Domino's corporate management is active in networks that: work against women's reproductive freedom; for English Only legislation; and against people's struggles in Angola, Mozambique, South Africa and Central America. These networks are mainly comprised of religious groups who strive to keep women disempowered.

**BRIDAL SHOP**

A graphic symbol of compulsory heterosexuality and all the social legitimization that comes with being a married woman. Hidden behind the bridal veil are the horrifying statistics on domestic violence, wife beating and marital rape.

**BOHEMIAN CLUB**

An elite men's club, members include Bush, Reagan, Nixon, Rockefeller and many other corporate-military power brokers. Famous for summer retreats to the Bohemian Grove where these men frolic, bond and, outside of public scrutiny, make policy that affect all our lives.

**PHILIPPINES CONSULATE**

Represents the Cory Aquino government in the S.F. area. As a puppet of the U.S. dictated policy, Aquino has supported the gigantic U.S. military bases in her country. The cities surrounding these bases are major Asian centers for sex tourism, the economically and physically forced prostitution of women and children, that caters to U.S. military men.

**WOMEN'S LIVES ARE NOT EXPENDABLE. EXPOSE THESE TARGETS !!!!!!!**
