

Angela is free!  
NOW we must free RUCHELL  
and all political prisoners!

Ruchell Magee, Angela Davis' codefendant, faces charges of murder-kidnap-conspiracy in the racist California courts. His trial begins August 1.

Magee is the sole survivor of the Marin County Courthouse escape attempt in 1970. That attempt was begun by Jonathan Jackson with revolutionary love and commitment and was ended by police bullets when the men involved were on their way to expose the true nature of jails on television. Magee is charged with the murder of Judge Harold Haley while eye witnesses have reported that the police--in their vicious attempt to stop the escape at any cost--shot the judge.

Magee, like the majority of u.s. prisoners, was railroaded into jail 20 years ago (when he was 13) and has been fighting since 1965 to appeal his conviction in California. He, as others, has had to continually fight for his right to free speech and has been struggling for a year and a half for the right to defend himself in court as his own counsel. The judges have continually denied him his rights. The racist courts have even brought Brother Magee and others into court in chains, tortured inmates in jails and denied them their rights and humanity. Magee has been a leader of the struggle inside prisons, acting for the last 5 years as a jailhouse lawyer, teaching brothers in jail about defending themselves in court and about the racist, corrupt nature of the prison system.
